Problem Statement

Often missing appointments forgetting tasks and feeling overwhelmed by schedules due to lack of a reliable calendar and checklist app that withholds an reminder alarm system

Who is experiencing the problem?

Students who are on the go and have busy schedules

What is the Problem?

It can be hard to juggle a busy schedule by yourself as a student

Where does the problem present itself?

Typically, at university or at work

Why does it matter?

People need an easy and quick way to view and edit their schedules to stay on time for all their events and classes
